

## Services

SULO Australia is dedicated to the highest level of both customer service and product quality. Our professional staff are available to assist with your needs, no matter how small. Their high level of product knowledge and 'can do' approach ensures we are able to respond to all your enquiries and provide the solutions you require to design and maintain your bin fleet.

SULO's core business ranges from planning the right bin range and service solution for your business to the manufacturing of quality waste containers through to the recycling process of the bin at the end of its usable life. In order to maximise the lifespan of our product we have developed a range of services to assist our clients in maintaining their wheelie bin fleets. At SULO we call this a Whole of Life Solution.

SULO's Whole of Life Solution incorporates all facets of the lifecycle of waste containment systems within the pre-collection phase of the waste management process. SULO's Whole of Life approach incorporates a number of specialised services to maintain a bin fleet throughout its entire useful life and incorporates our vision for product stewardship through the use of recycled content and taking back our product to recycle again.

## Fleet Planning Services

*"The logistics involved in planning, manufacturing and distributing the largest roll-out of a new 3 bin system in the southern hemisphere were staggering but SULO delivered it on time, to specification and within budget..."*

- SULO can provide highly specialised advice on planning and implementing a new waste management system or upgrading your existing one regardless of its size.
- We can also advise on bin scoping, financing strategies and waste audits.
- **Benefit – Optimises your bin fleet composition and lifespan**

## Recycling Service

*"We were certainly impressed by the fact that SULO uses up to 35% recycled material in its 2 wheel bins..."*

- SULO 'closes the loop' by buying back old bins and recycling the material for use in the manufacture of new high quality bins.
- Mobile Garbage Bins manufactured by SULO contain up to 35% recycled content
- **Benefit – Reduces the environmental impact by diverting material from landfill.**

## Fleet Maintenance Services

*"The SULO FMS has proven to be highly efficient and meets the expectations of our residents..."*

- SULO is a widely experienced and trusted partner in fleet management, able to customise a service to meet your specific needs regardless of fleet size.
- Our services are managed through a secure online system, tracked and completed within the agreed timing.
- **Benefit – Reduces the risk and costs of maintaining your bin fleet, improving your cash flow and service levels.**

## Manufacture and Supply

*"SULO had delivered over 15 million bins to residents in Australia and New Zealand"*

- Our state-of-the-art Australian manufacturing facility uses world class technology and processes to produce the largest range of quality bins from 60L through to 1500L
- SULO also supplies an innovative range of new products including the Steelybin, Kitchen Tidy, Ecoenclosure, and Clinical Container.
- We have distribution centres across Australia to service all your needs.
- Stocks are available for your immediate needs.
- **Benefit – High quality Australian made bins and accessories for every application.**

## Assembly and Distribution Services (A&D)

*"In partnership with SULO we are able to track every aspect of our roll-out with their web based A&D management system. The accuracy, timeliness and security of the data and reports were really impressive..."*

- Through our investment in scanning, innovative proprietary software and information technology SULO can effectively manage, monitor and report on every aspect of your bin roll-out, replacement, retro-fit or pull back.
- The SULO web based system is not only accurate and secure, but can report in real time.
- **Benefit – Simplifies your operation and administration, and gives you total control over the process with timely information and reporting.**
